

Power Standards in Kid Friendly Language
Third Grade

Power Standard 1

Analyze relationships between historical events, people, and symbols, and recognize that interpretations may be different.

Power Standard 2

Relate maps and globes to the physical objects that they represent.

Power Standard 3

Differentiate between natural and man-made environments and recognize how humans impact them.

Power Standard 4

Compare and contrast the basic function and purpose of local, state, tribal, and national governments.

Power Standard 5

Summarize the importance of keeping your traditions while understanding traditions of other cultures.

Power Standard 6

Demonstrate the roles and responsibilities of a good citizen.

Power Standard 7

Explain how groups and societies make decisions that affect the distribution of resources.
