## *MISSION STATEMENT*

The Chief Operations Office of Rio Rancho Public Schools will provide exceptional, thorough oversight and direction related to the operational functions and strategic planning of the district. In addition, the office will assist the Superintendent in providing excellent leadership in developing, achieving, and maintaining the best possible educational programs and services to ensure our overall objective of student excellence.

## *VISION STATEMENT*

We strive for excellence by continuously measuring and assessing all organizational aspects of the district. We will continue to implement best practices and strive for continuous improvements in the areas of financial management, student and staff safety, information technology, human resources, and facility development and maintenance.

## *VALUE STATEMENTS*

### **Integrity**

We are committed to maintaining the highest standards of behavior, including honesty and fairness, in the oversight of all areas of Operations at Rio Rancho Public Schools.

### **Leadership**

We continuously focus on leading by example as well as leading through honesty, collaboration, inclusiveness and responsibility.

### **Accountability**

We take responsibility for all areas of operations and ensure that each operational department is held to the highest level of standards and accountability.

### **Transparency**

We are dedicated to managing all areas of Operations openly and with complete transparency.

### **Customer Service**

We are dedicated to both internal and external customer satisfaction. We believe in providing exceptional customer service and in striving to exceed our customer's expectations with every interaction. In addition, we serve as a resource for customer service needs throughout the district.

### **Teamwork**

We are committed to working towards a common goal, openness and trust in all relationships, and to maximizing and valuing each individual's talents. We strive to create a work environment where each employee is able to achieve their maximum potential.
